

Reliable and Durable Rig

Robust boom for efficient and trouble-free operation

Self-diagnostic and voice alarm system

Main features:

1# Compact strcture & high efficiency:

Small dimensions, minimum 1.9m×1.9m working section. Fast drilling speed, equipped with 18kW rock drill, up to 2.5m/min.

2# Easy:

Adopting electro-proportional hydraulic control makes drilling and positioning more convenient, flexible and precise.

3# Automatic:

With automatic drilling, automatic retraction, automatic jamming release, automatic stopping impact and other functions.

4# Digital:

Digitally record the number of holes drilled, drilling depth and other data, real-time supervision and evaluation of the construction situation.

5# Safety:

Equipped with self-diagnosis and safety voice alarm system, real-time monitoring and fault detection.

A sturdy and stable chassis, equipped with a 66kW environmentally friendly national IV level engine

Face Drill Rig WD5

Most reliable U1838ME rock drill

A Partner-Worthy Of Your Trust

Uniroc U1838ME Rock Drill

Our self-developed rock drill U1838ME is specially equipped with a secondary buffer system, which greatly extends the service life of the hydraulic rock drill. It is also equipped with advanced frequency conversion system at all levels, which enables it to flexibly cope with a wide range of different levels of surrounding rock conditions, completely solving the limitation of traditional rock drills that are difficult to be used for multiple purposes.

Remote control operation

Remote control electric proportional hydraulic intelligent control system, no blind spots in the field of vision during operation, personnel stay away from dangerous places, safe and reliable; Visual adjustment of operation parameters, which can be pre designed to flexibly respond to different working conditions.

Drilling System

Adopting high efficient and fast electro-proportional hydraulic control drilling system, including automatic drilling, automatic retraction, automatic release of jamming brazier and other functions.

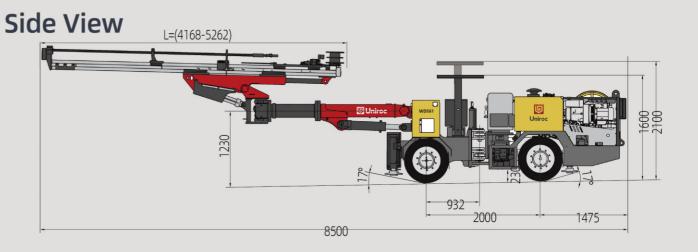

Professional service offering

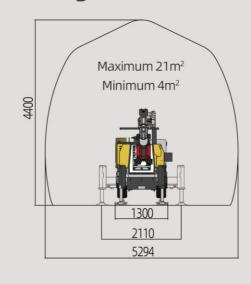

Uniroc's service solutions ensure that your equipment performs at its best throughout its life cycle.

By combining genuine parts and Uniroc services from our certified technicians, we provide the highest quality technical support to ensure that your equipment continues to run efficiently and safely.

Technical Specifications

Rock drill	
Shank adapter	T38
Height over drill centre	88mm
Length without shank	1008mm
Impact power	18kW
Impact rate	60Hz
Rotation system	Separate rotation
Rotation speed, max	215rpm
Rotation torque, max	1000Nm
Lub.air consump.at 2 bar	5L/s
Water consumption	40-120L/min
Sound level	<128dB(A)

Carrier			
Power rating at 2200 rpm	66kW (90 hp)		
Torque at 2200 rpm	360Nm		
Articulated steering	38° steering angle		
Rear axle	±7° oscillation		
Tyres	31×10-20		
Hydraulic jacks, front	2 extendable		
Hydraulic jacks, rear	2		
Service brakes	2 separate circuits		
Emergency and parking brakes	Spring brake		
Fuel tank, volume	50L		
Electric system	24V		
Batteries	2×12V, 120Ah		
Driving lights	LED 1×48W & 2×30W 24V DC		
Working lights	LED 2×100W, 24V DC		
Gradeability at max load on drive wheels	15°		
Water-cooled diesel engine, Ch	ninese Stage IV		
Fixed seat for tramming			
Four-wheel drive			
Hydrostatic transmission			
Automatic differential			
Silencer			
Fire extinguisher			
Spirit level			
Horn, beacon and reverse alarm			

Electrical system			
Total installed power	65kW		
Main motor	1×55kW		
Voltage	380-660V		
Frequency	50Hz		
Starting method	star/delta		
Transformer	0.3kVA(660V/6kVA)		
Cables reel 530/871mm			
Thermal overload protection for electric motors			
Percussion hour meters			
Digital voltmeter/amperage meter in display			
Phase sequence indicator			
Battery charger			

Boom	
Feed extension	1500 mm
Feed roll-over	360°
Lifting angle	+42°/-28°
Boom swing angle L/R	±35°
Weight, Boom only	1250 kg

Hydraulic system		
Hydraulic pumps	1 unit	
System pressure, max	230bar	
Hydraulic oil tank, volume max	135L	
Filtration	10um	
Oil filter indicator		
Low oil level indicator		
Water cooled oil		
Mineral hydraulic oil		

Air system	
Capacity max. at 7 bar	6.8 L/s
Air pressure gauge	

Water system	
Water booster pump working capacity, L/min	25-80
Water booster pump working pressure, bar	8-12
Min. water intet pressure, bar	2
Water flow guard	

Control system

Remote electro-proportional hydraulic control system

Basic functions such as anti-jamming included

Feed			
	Model A Standard	Model B Optional	Model C Optional
Total length	5262mm	4658mm	4168mm
Drill rod length	3700mm	3090mm	2600mm
Hole depth	3400mm	2800mm	2300mm
Weight, incl. drill	610kg	570kg	540kg
Feed force	7-15kN	7-15kN	7-15kN

Optional equipment

Drifter rods			
Dimension		Min. hole diameter	
mm	R32-H35-R38	45	
	R32-H35-T38	45	
	R32-H35-T38 Speedrod	45	
	R32-D39-T38	45	
	R32-D39-T38 Speedrod	45	

Shank			
mm	Shank type	Length of shank	Diameter of shank
	R32	435	38
	R32	525	38
	R32	435	38
	HM38	525	38
	T38	435	38

Couplings
